## Pocket Projector

### OVERVIEW

Virtual Vision 5100 Pocket Projector is a light-weight, compact, handy, multi-featured pocket projector for business and personal use. With VV 5100 cutting edge optical sensor technology, this palm-sized pocket projector provides up to 25" display screen at 1 meter distance. On the other extreme end, through the VV 5100 and its high spec input interface, connecting to PS3 or Xbox360 video game consoles only needs 0.6 meter of distance to project 15"/20" display, allows oneself to be immersed in the virtual reality: enjoying the feeling of wars and conquers, whether from the movies, animations or virtual sports games, all can be virtually projected like if one is present in the situation, enjoying the ultimate audio visual experience. For businessman aspect, VV 5100 comes with D-Sub 15 pin port which allowed user to connect their notebook to VV 5100 for presentation purpose.
